⚠️ Add MFA for root user

Sign in as the root user (or contact your administrator) and register a multi-factor authentication (MFA) device for the root user to improve security for this account.

Add MFA

⚠️ Add MFA for yourself

Add multi-factor authentication (MFA) for yourself to improve security for this account.

Add MFA

✅ Your user, admin, does not have any active access keys that have been unused for more than a year.

Deactivating or deleting unused access keys improves security.
